

# Wingaru Easter Egg Puzzle

Emu

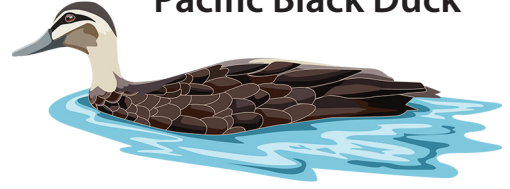

Emu eggs are 13cm long - the largest of any Australian animal.

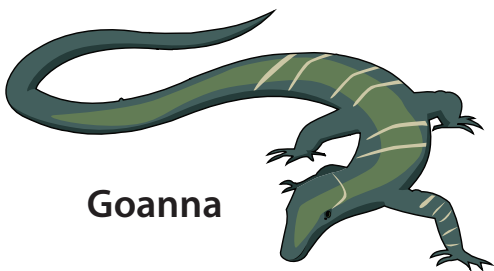

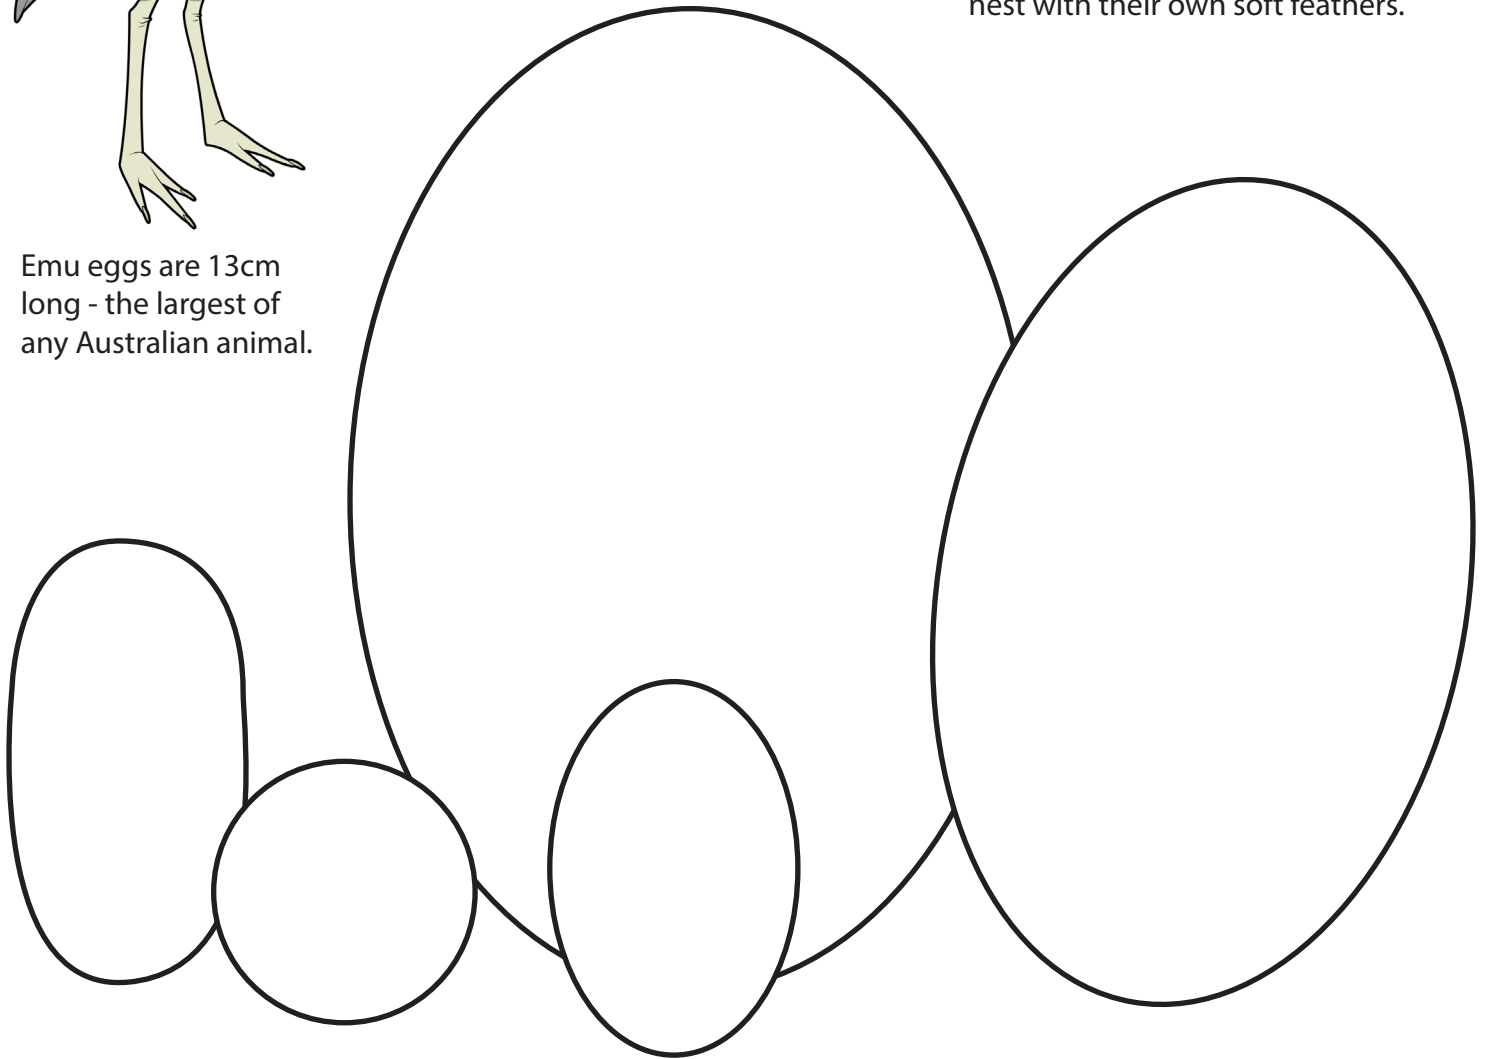

Can you match the eggs to the owners?

After matching, decorate and colour the eggs.

Pacific Black Duck

Ducks lay 7 to 13 eggs and line the nest with their own soft feathers.

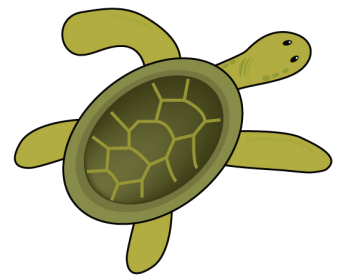

Goanna

The Lace Monitor lays 4 to 14 eggs in a termite mound in spring or summer. The eggs are less pointed than bird eggs.

Black Swan

Swan eggs are 11cm long. Swans build a nest of reeds and grass surrounded by water.

Hawksbill Turtle

Turtle eggs are buried in sand. The eggs are almost circular and have a soft shell.
